

Initial contact points and competence centres which provide counselling on the recognition of foreign professional qualifications

The IQ Network Baden-Württemberg has been providing information about recognition of foreign professional qualifications since 2011. The range of counselling service has been expanded continuously in cooperation with the state of Baden-Württemberg and the League of Non-Statutory Welfare.

The counselling service addresses persons with foreign professional qualifications as well as labour market institutions and migrant organisations. Initial contact points and competence centres are available in all four administrative regions of the state of Baden-Württemberg.
